

Airless Gun **PSAM** **350**

***Professional power with
precision and control***

The Sagola PSAM 350 is a high-pressure airless spray gun designed to perform efficiently in demanding professional environments. Its airless spraying system allows operation at pressures of up to 350 bar (5,076 psi), delivering excellent material transfer, high application speed and high-quality, uniform finishes.

Designed for intensive use, it features a robust construction with ergonomics that facilitate work during long operating periods. The stainless steel trigger, with a wide contact surface, enhances control and comfort in continuous applications.

Its internal tungsten carbide components and anti-corrosion treatment ensure durability and consistent performance. The swivel connector provides greater freedom of movement and easier access to hard-to-reach areas.

It is compatible with different tips to suit materials of varying viscosities and offers multiple filtration options (30, 50, 100 and 200 mesh), ensuring a uniform finish in every application.
